

Spring Poem

   
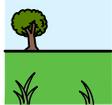

After winter comes the spring,

    
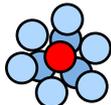

And warmer days can now begin.

   
Blossoms grow upon the trees,

    
And everywhere they grow new leaves.

    
The days grow longer and start to warm,

   
And daisies grow upon the lawn.

    
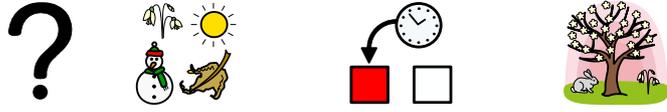

Bees at work amongst the flowers,

   
And rainbows during April showers.

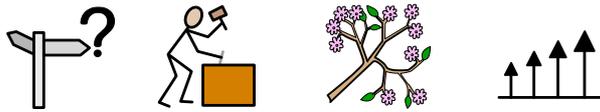

Spring Poem

1. What season comes before spring?

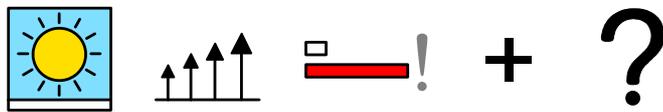

2. Where do blossoms grow?

3. What new things do the trees grow?

4. The days grow longer and what?

5. Where can daisies grow?

6. Where are the bees working?

7. When is the rainbow?
