Your software should now be ready to use.

Troubleshooting

If you are getting a network error you may need to do a manual activation

To do this please follow the below steps.

- Open Widgit Product Activator
- Enter your licence key and start an activation.
- When asked if you have an internet connection, select I do not have an internet connection
- Step forward in the activation until a machine ID is displayed.
- Open an internet browser and go to the page https://activation.widgit.com/activations
- Enter your machine ID in the top box and your licence key in the second box.
- the Internet page should return you an activation code, please enter this in the Widgit Product Activator
- Your software should now be activated.
