**FAIRTRADE  
FOUNDATION**

In the UK we have many shops and supermarkets.

It is very easy to buy a wide variety of foods.

Have you ever wondered where your food comes from?

Food has often travelled many miles to reach us.

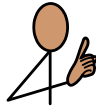

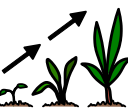

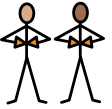

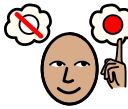

We make choices about the food we buy.

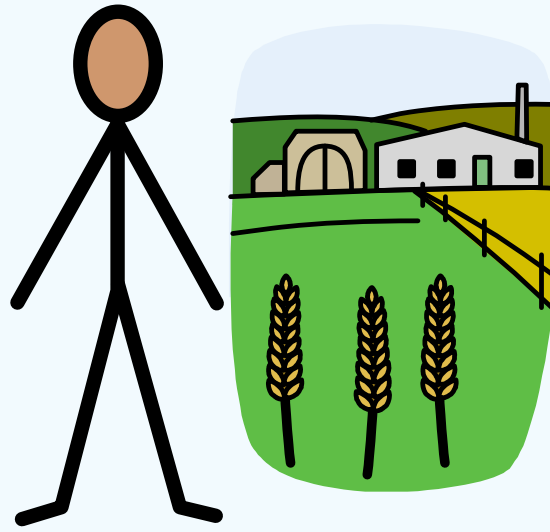

These choices depend on taste, quality and price.

These choices affect the people who grow our food.

Fairtrade encourages us to think about these choices.

Farmers around the world work hard to grow crops.

The crops they grow provide the food we eat.

The crops they grow include cocoa and sugar cane.

Farmers that grow crops are called producers.

**FAIRTRADE**  
FOUNDATION

Large companies buy crops from farmers.

The crops can be used to make products.

The crop cocoa is used to make chocolate.

People that buy products are called consumers.

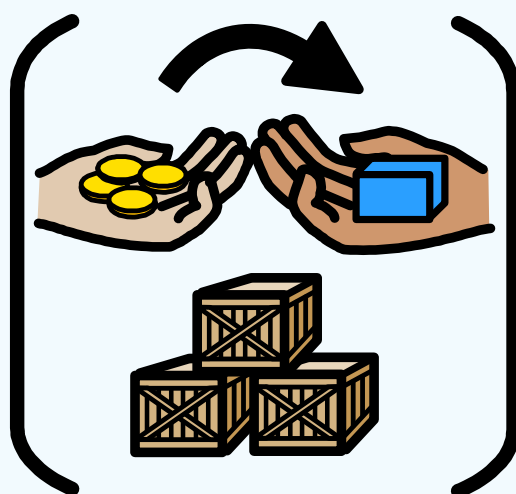

A supply chain represents the journey of a product.

The supply chain begins with the farmers.

The supply chain ends with the consumer.

A supply chain can be long or short.

Buying and selling goods is called trade.

Companies buy crops from the farmers.

Crops can be made into products.

Companies often pay the farmers very little money.

If farmers receive low wages, life can be hard.

They do not have enough money to pay for basic needs.

Basic needs include a safe home and clean water.

Basic needs also include access to education.

Fairtrade aims to ensure a fairer trade for farmers.

Fairtrade ensures farmers are paid fairly for their crops.

Farmers receive a fair wage.

Farmers can afford better living and working conditions.

**FAIRTRADE**  
FOUNDATION

The Fairtrade Foundation looks after Fairtrade in the UK.

The Fairtrade Foundation was established in 1992.

The Fairtrade Foundation certifies that a product has met Fairtrade standards.

This means that a farmer has received a fair wage for their crops.

The Fairtrade Mark is a label used to identify Fairtrade products.

The Fairtrade Mark shows that a farmer has been paid fairly.

There are many Fairtrade products available to buy.

Fairtrade products include bananas, flowers and clothes.

Buying Fairtrade products is good for farmers.

It means that more companies support Fairtrade.

Companies like to keep their customers happy.

1. Use a ruler to match the parts of the sentences.

Farmers

around

the world

a fair

wage.

Farmers

deserve

to be

paid

grow

crops.

Fairtrade products

include

bananas

and flowers.

2. Add ticks to show which statements are true and false.

True

False

Farmers are known as consumers.

Buying

Fairtrade products

helps

farmers.

A supply chain

begins

with

the farmers.

FAIRTRADE FOUNDATION

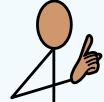

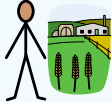

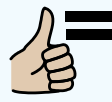

3. Number the sentences from one to four to show the correct sequence.

  
 Consumers buy Fairtrade products in supermarkets.

  
 Fairtrade ensures farmers are paid fairly for their crop.

  
 Farmers work hard to produce crops.

  
 Crops can be used to make products such as chocolate.

1

4. Copy one word from the text to describe what life can be like for farmers.

If farmers

receive

low

wages,

life

can be

hard.

They

do not have enough

money

to pay for

basic needs.

-----

# Literacy and Maths

The Reading Skills Pack and the Maths Pack include a variety of activities, covering key curriculum objectives. Colourful Semantics resources are included to support understanding of sentence structure.

- Colourful Semantics
- Maths Pack (Number and Place Value)
- Reading Skills Pack

## Colourful Semantics

Colourful Semantics supports children in developing their spoken and written language. It supports the development and understanding of sentence structure by beginning with the verb. Every sentence needs the verb and then '*something else*.' If doing this correctly, it will mean there is not always the Who, Doing, What, Where structure which you may have been using previously.

The resource includes a mix of **vocabulary** work based around the colours such as matching, as well as '*true*' Colourful Semantics work which focuses on sentence structure. Activities start with the basic single word structure and move through to more grammatically focused activities and onto sentence building / writing.

Colourful Semantics is a system developed by Alison Bryan.

## Colourful Semantics

# Topic

The Topic activities provided aim to help learners recognise the global connections that exist between producers and consumers and understand the processes involved in creating some Fairtrade products.

- From Crop to Product
- Fairtrade Mindmap
- Origins of Fairtrade Products
- Producer to Consumer Journey
- Fairtrade Quiz

Read the text to find out how Fairtrade products are produced.

1,700,000  
M

Over 1.7 million farmers and workers are part of Fairtrade globally.

These farmers and workers grow a wide variety of crops.

Some crops can be purchased and eaten without any changes.

e.g.

Examples of this include bananas and oranges.

Some crops can be combined with different ingredients to make products.

e.g.

Examples of this include coffee and chocolate.

tea

A tea plant produces tea leaves.

Tea leaves are picked and dried.

The dried tea leaves are made into tea.

Tea is a popular drink that is enjoyed all around the world.

FAIRTRADE FOUNDATION

chocolate

A cocoa plant

produces

cocoa pods.
