# **The Page Status Bar**

The **Page Status Bar** runs along the bottom of the screen.

	Page 1 of 1	<ul> <li>Manage Pages</li> </ul>	Select	/	Fit to Width	🚺 Fit to Height	-	- <b>-</b>	+	72%
--	-------------	----------------------------------	--------	---	--------------	-----------------	---	------------	---	-----

From this bar you can **Manage Pages**, **Select** sections of your documents, change the visible **Size** and switch **Book Mode** on and off.

Manage I	Pages
<u> </u>	
Page 1 of 1	<ul> <li>Manage Pages</li> </ul>

Clicking on the arrow toggles the Manage Pages menu open and closed.

Here you can Add, Duplicate and Delete pages. You can also switch Book Mode on and off.

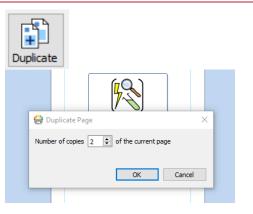

#### Click to add pages.

A pop-up menu allows you to select the number and placing of the extra pages.

Add	
🔮 Add Page	×
Add 3 🔹 single page 🔹	Where? O Before current page After current page
	OK Cancel

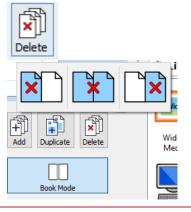

#### Duplicate

A pop-up menu allows you to duplicate a page and its contents.

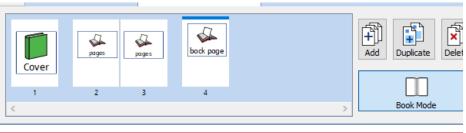

### Delete

The **Delete** button allows you to delete the selected page (or a pop-up menu to delete pages in **Book Mode**).

#### **Book Mode**

This allows you to toggle between single pages (documents intended to be printed as separate sheets) and two-page spreads (documents intended to be printed as a folded book).

#### **Ordering Pages**

You can reorder pages in both modes.

1. In Single Page mode to move a page, click on it once and drag it to the desired position. If you want to move more than one page, Ctrl and click on the individual pages you want to move, then drag them to the new position.

2. In Book Mode you can rearrange Page Spreads using the Page Manager. To move a spread, click on it once then drag it to the desired position. If you wish to move individual pages, rather than a spread, press Ctrl + click on the individual pages you wish to move.

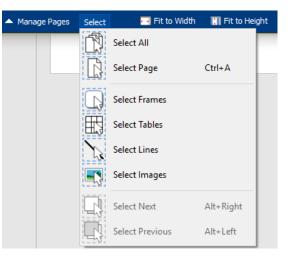

# Select

You can use the tools to select objects across the whole document. This can be especially useful when you wish to change the properties of multiple objects at once. You can select:

- All **Pages**
- All items in current Page
- All Frames
- All Tables
- All Lines
- All Images

The Next layer of a stack of objects

The **Previous** layer of a stack of items

## **Measurement and Size**

+ <b>∔</b> 1.80, 1.80cm	Clicking on the <b>Measurement Tool</b> opens a popup which allows you to set a precise size ( <b>Width</b> and	Measurement and Locking A X Width: 17.40cm			
<b>Height</b> ) and po item.	Width:     17.40cm ▼       Height:     24.85cm ▼       x:     1.80cm ▼       y:     1.80cm ▼
